HAYES WANTS TO SEE BEST MAN WIN STAR MARATHON

Winner of Great Olympic Race, Playing This Week
at Proctor's Theatre, Is Pleased at Entry
List of Newark Race.

BY JOHN J. HAYES.

Winner of the Olympic Marathon, who is arranging details of THE EVENING STAR Marathon.

I WAS very much surprised and pleased, when shown the complete list of entries in THE EVENING STAR Marathon, to see the number of athletes entered. It is certainly gratifying to find out the strong hold that distance racing has gotten on the youth of the country. Not only from New Jersey do the runners come, but from New York, Yonkers, Poughkeepsie and other towns along the Hudson River, not to mention those who have entered from the southern part of this State. It shows a healthy desire to improve, not only one's health and power of endurance, but also that the athletes of this section are out to learn the other valuable lessons which this long-distance game teaches.

Since arriving in Newark yesterday, I have been stopped on the street by many young fellows and importuned for bits of advice as to the proper way of running, and invariably the answer to my question of what race they were entered in would be "THE EVENING STAR Marathon race." I am going to try and meet as many of the men entered as I can, and if my business arrangements will permit I will be glad to give any advice to the youthful aspirants that I may be able to. I will be at Proctor's Newark Theatre all this week, and I may have opportunities to see the boys personally. Although this may prove impossible, I want you fellows to know that I am interested to a great extent in this big contest, and that I will have a sense of personal gratification when the first man breaks the tape at the finish, only less fervid than if I was the winner myself.

THE EVENING STAR is to be congratulated on keeping up the interest in long distance racing in this country, and I predict that their example will be followed in all parts of the country and that the wave of Marathon races all over the country will be in continued force from now on. Why shouldn't the interest be kept up? As I have said before, there is not a healthier game in all the athletic program; there is not an event which brings out all the good that there is in a man as does a long-distance contest, and there is not a race that there is so great a desire to win and so great a gratification to the winner as in a race of this kind, where it is not only a test of ability to sprint but also a determination to "plow" along and reel off mile after mile, using your head, keeping up the steady pace that you know that you can stand, and when the final moment comes to let out a sprint that will take the heart out of your opponents and land you a winner—not an easy one, but nevertheless a winner, and after all, that is what everyone entered in the race wants to be and what everyone loves—a winner.

Best Man Will Win.
I want all you fellows to remember that we want the best man to win, irrespective of city, club or any other affiliation. There will be few, if any, disqualifications for foul running, and I want to see if it is not possible to carry this event through without one single disqualification whatsoever. If we can do this it will be a record, and the biggest boost that clean athletics has had for many a day.

You are going to be watched closely by competent officials, but at the same time a great deal is going to be left to your honor and your sense of fair play, and it is to these that I want to make an appeal. You do not want to win and know that the cheers that you will get from the thousands who will line the course would be changed to hisses if they but knew that you had been returned the winner unfairly, do you? Do you want to win the handsome medal offered to the winner, and when wearing it, instead of feeling proud, have it burn your breast with the shame you feel? I tell you, fellows, it isn't worth it by a whole lot. I have never heard an appeal made to the honesty and the sense of fair dealing without having heard that appeal listened to and heeded. Go in and win, I say to you, but if you have any idea that you would take an advantage that is unfair, don't start, or if you do, drop out before you have covered the first mile. You will feel better doing this than you would if you were to win and then you would have the first prize, for that is what it would amount to.

Surpass England Now.
American athletes have proven their superiority in long-distance running as in every other branch of athletic sport. At first, England was able to show us their heels in any distance over a half mile. Now, we take second position to no one. "Me" Sheppard made them all never heard an appeal made to the honesty and the sense of fair dealing without having heard that appeal listened to and heeded. Go in and win, I say to you, but if you have any idea that you would take an advantage that is unfair, don't start, or if you do, drop out before you have covered the first mile. You will feel better doing this than you would if you were to win and then you would have the first prize, for that is what it would amount to.

How do you suppose that this fine condition of affairs was brought about? By resting on what few laurels we had in the distance game? No, sir, by strenuous training and studying out systems of building our runners up and increasing their speed, not to be as fast and enduring as the English, but to make them harder and faster. Now, the American is first in every branch of athletics, including the Greek sport of throwing the discus.

So you boys, will find that without training you cannot get ahead in this long distance game or in any other branch of athletics. Knowing this, get together and work as you have never done before.

SOME OF RUNNERS ENTERED IN EVENING STAR MARATHON

GIANTS MAY PLAY TIGERS 3 GAMES AT POLO GROUNDS

Series May Be Arranged Between Two Teams for This Week.

The Academy of Music at New York was crowded last night when a benefit performance for the New York National League team was given. Well-known vaudeville performers participated, and the audience had a chance to cheer each favorite when he stepped to the front to receive the gold watch fobs that were presented to him.

Announcement was made that it was likely that the Detroit team would come to New York for three games this week, and that as soon as all of the Giants had been consulted as to their engagements and their willingness to play the formal announcement of the dates of the games would be made.

ADMIER OF COVALESKIE
SENDS HIM \$50 CHECK.

SHAMOKIN, Oct. 19.—Harry Covalleskie, of this place, pitcher for the Philadelphia National League Club, received a letter and a check for \$50 from William Shettline, of the Phillies, yesterday, the writer informing him that an admirer of the big south-paw had handed him the check to send to Covalleskie on account of showing up so good in the recent New York-Philadelphia series. The big pitcher spent part of the past week gunging in the mountains and is in fine physical condition.

He has been offered the position of helper in a blacksmith shop here in order to keep in training for the ensuing season, and he thinks seriously of accepting the position, instead of lounging about the country taking on flesh.

WILKESBARRE WANTS KANE.

WILKESBARRE, Pa., Oct. 19.—Efforts are being made by the managers of the Wilkes-Barre professional basketball team to persuade Jimmy Kane, the Pittsburgh's first baseman, to give up his idea of playing with the South-side team of Pittsburgh in this city. Kane played two seasons with the Wilkes-Barre team and has many admirers here, who would be pleased to see him again wearing the orange and white.

FRACTURES SKULL ON AUTO COURSE.

MINEOLA, Oct. 19.—Andrew Murray, mechanic for Emil Striker, the German automobile driver, who is to pilot the car entered for the forthcoming Vanderbilt Cup race by Robert Graves, was seriously injured yesterday while trying out the course near Jericho. A front tire exploded at the Jericho turn, hurling the big racing machine into a tree and spilling both driver and mechanic. Murray was picked up with a fractured skull and was removed to the Nassau Hospital, where it was said he had a fair chance to recover. Striker escaped with bruises. The car was uninjured.

RUSH OF ENTRIES FOR STAR MARATHON

One Hundred and Fifty-five Athletes to Start in Race.

BY JAMES M. GOULD.

THE entries for the Marathon race closed at 12 o'clock on Saturday night, and the result was a big rush of late post entries. A complete list of those who are going to appear in today's paper and numbers one hundred and fifty-five. It was necessary to reject some few men who entered at the last minute, because they did not come with the requirement that they must belong to the A. A. U. This number was very small, however, and the field, as at present made up, is not only the largest of any other Marathon race held in this country, but is also the classiest.

I want to go over some of the points about the race, in order to impress indelibly on the minds of the runners just what is required of them. In the first place, every man is required to be examined by the official physician, Dr. Louis A. Koch, 20 Orchard street, and must call on him at his office between 7 and 8 o'clock tonight or tomorrow night. This applies to the local runners and such of the out-of-town men who live close to this city. The runners from up the Hudson and metropolitan districts may be examined on the morning of the race at the office or other place designated for the men to dress. It will be necessary, however, for these latter to appear at the office of THE EVENING STAR by 10 o'clock on the morning of the race, as there will be a great many men to be examined on that day. No charge of any kind will be made for this examination. The runners who have already undergone examination as to their condition must report not later than 11 o'clock on the day of the race. I want to say that in lieu of the examination by the official physician of the race, certificates of good condition will also be accepted from any reputable home physician that the runners may care to go to.

I must again request that photographs of entrants be either sent in to me at once or that the men call at this office and have them taken at least 24 hours before the race, so that they may be published in the paper. Out-of-town runners may reach this office by either the D. & W. R. R., the Central Railroad of New Jersey or the Pennsylvania R. R., leaving New York, respectively, from the foot of Barclay, Liberty or Canal streets. The Central railroad is the more convenient of the office. Ample arrangements for the policing of the course and the keeping back of the crowd at the start and finish have been made, and the contestants, although they may be bothered a little at the start, will find that they will have clear sailing around the course. It is the intention of the officials to start the race at noon exactly or as soon thereafter as is possible, and it is therefore important that all runners be at the office at the above-mentioned times, in order that they may receive their numbers, get their final instructions and be assigned to dressing-rooms in good time before the start. Herewith appended is the complete list of entries as received up to closing time:

NATIONAL-LINCOLN
GAME RESULTS IN TIE.

The National Turners and the Lincoln Athletic Association had a battle royal on the latter's grounds yesterday, and after a hair-raising scrap the issue was called a draw, the score reading 10 to 10. The Turners tied the score by rushing four runs over the plate in the last inning.

By request of a number of policemen, firemen and letter-carriers, the Newark Athletic Association has added a 100-yard dash event for them at the athletic meet Sunday, October 25.

Entries for this event will close Thursday, and for all other events tomorrow.

W. H. Smith, 33 South Twelfth street, will receive the entries.

GLEASON TO MANAGE DES MOINES.
DES MOINES, Ia., Oct. 18.—The famous "Kid" Gleason, infielder of the Philadelphia National League team, will be the manager of the Des Moines club next year. This statement comes from reliable sources. Unless Gleason changes his mind, he will be Dexter's successor. It is not known whether Dexter will be a member of the team next year, but it is declared definitely that he will not be its playing manager. He may be employed as business manager.

ROUTE OF EVENING STAR

The route for THE EVENING STAR Marathon race, selected by John J. Hayes, Olympic champion, follows: Starting from THE EVENING STAR office, north on Broad street to Belleville avenue, thence to Bloomfield avenue, to Mount Prospect avenue, to Elwood avenue, to Old Bloomfield road, thence through Silver Lake by way of Franklin street, to Broad street, Bloomfield, and thence to Bloomfield centre.

From this point the course will follow the car tracks, south on Glenwood avenue to Prospect street, East Orange; then to Dodd street, to Washington street, to Day street, to Main street, Orange; east on Main street to Munn avenue, East Orange; south on Munn avenue, to South Orange avenue, Vailsburg; east on South Orange avenue to Springfield avenue; thence to High street, to Clinton avenue, to Broad street, the finish being north on Broad street to THE EVENING STAR office.

CLARKS' STRONG FINISH DEFEATS WEST HUDSONS

Whirlwind Playing Near End
Wins for Threadmen—Draw
Game at Wiedenmayer's.

In the last few minutes of play yesterday afternoon on their own grounds in West Hudson the Clarks swept the West Hudsons off their feet and pulled out a sensational victory by the score of 3 to 2.

The defeat of the West Hudsons was a great surprise to the big crowd, nearly 3,000 persons being present during the contest. The two Fishers were in the line-up for the Clarks, and their presence had a whole lot to do with the victory of the threadmen. Charles Fisher landed the tying goal from a penalty kick. Nelson scored the winning goal for the Clarks just at twilight. The line-up follows:

Clarks: A. A. Hanson, Goal. Hunt, Backs. Seddon, Kettles, Martin, Tomas, McKay, Neil, Forfar, Porter, Lawson, T. Fisher, Forward.

West Hudsons: N. Young, C. Fisher, Dean, Knowles, McNell, J. Young, Colville, Nelson, Forwards.

Reference—J. Nesbitt, of New York. A drawn game was played at Wiedenmayer's Park yesterday afternoon between the Scottish-American football team and the Newark football team, the score being 3-3.

It was the opening game of the National League season in this city. The Newark bunch had a lot of speed in the first half, and it looked like an easy victory for them, but the Scots came back strong in the last period and had the Newark bunch on the defensive all through.

Newark had a lead of a goal when the teams lined up in the second half. In a few minutes the Scots evened up the score. On a penalty kick Newark forged ahead again, only to be tied up for the last minutes of play by Phillips, who pushed the ball between the Newark posts. The line-up:

Scottish-Americans: Newark. Eapin, Lakely, Barr, Rennie, Mason, Miller, Barr, Rennie, Ross, Craig, Foster, Porteous, Brown, Wylie, Halfbacks. Jack, Phillips, Buchan, Piggan, Richardson, Marsden, Dunlop, Aitken, W. Purdie, Smith.

Reference—J. Hall, of Paterson.

CLARKE VICTIM OF "COMBINE" IN VELODROME RACE

With Australian Cyclist "Frozen
Out" Kramer Easily Wins the
Five-Mile Event for Pros.

Team work has been barred at the Newark Velodrome. The officials might make a better move by doing away with the forming of "combination" against one particular rider. That was how little Jackie Clarke was frozen out of a chance for first money in the five-mile open professional race yesterday. The Australian cyclist was deliberately cut off, to all appearances, in the final sprint for the tape, and the event went to Champion Frank Kramer, John Boddell finishing second, and brother Mennis third. The crowd was considerably wrought up over the apparent combination work against Kramer, but this time the officials paid no heed.

Kramer and Clarke also met in the one-mile handicap for professionals, but the great battle between these two stars did not materialize. Both Kramer and Clarke wanted the other to get the race. They dodged it long enough to let the handicap men gain a long lead, and both scratch men sat up on their wheels and quit after riding a few laps. The race was won by Cyrus L. Hollister, of Salt Lake City. Floyd Krebs captured the quarter-mile invitation race for pros. Adam Beyerman, of the Mohawk A. C., finished first in the "unknown distance" race for amateurs, and Jacob Magin, of the National Turners, took the two-thirds-mile amateur handicap.

The summary:
One-mile Open—Won by C. A. Mohrman, Empire City Wheelmen; second, A. Overlack, Newark; third, John Collins, Newark. Time, 2 min. 20 sec.
Two-thirds-mile Handicap. Amateur—Won by Jacob Magin, National Turn Verein Wheelmen; second, Ernest Lakerin, A. C.; third, John Boddell, Salt Lake City. Time, 10 min. 20 sec.

HUNTING AND FISHING.

You can depend on a late coldfish season as the water will hold these fish back. The owners of steamers that cater to the fishing banks patrons claim that a good season is expected, as it always has proved so after a large blackfish season.

The Chapman boys, of 378 Sherman avenue, fished at Weoguch Lake Saturday afternoon and caught six black bass. David Shorter, of Paterson, caught six catfish, and the last few minutes of play by Phillips, who pushed the ball between the Newark posts. The line-up:

Scottish-Americans: Newark. Eapin, Lakely, Barr, Rennie, Mason, Miller, Barr, Rennie, Ross, Craig, Foster, Porteous, Brown, Wylie, Halfbacks. Jack, Phillips, Buchan, Piggan, Richardson, Marsden, Dunlop, Aitken, W. Purdie, Smith.

Reference—J. Hall, of Paterson.

EVENT FOR FIREMEN,
POLICE AND CARRIERS.

By request of a number of policemen, firemen and letter-carriers, the Newark Athletic Association has added a 100-yard dash event for them at the athletic meet Sunday, October 25.

Entries for this event will close Thursday, and for all other events tomorrow
